Overall Width	1955 mm
Overall Height	2057 mm
Capacity	2000 Liter
Bitumen Tank Capacity	2000 ltr.
Diesel Engine	Lister Diesel Engine, HP 34, Air Cooled, Manual Cranking.
Fixed Spray Bar Length	1828 mm
Maximum Spray Bar Length	2745 mm
Oil Tank Capacity	40 Liter

Product Description

Product '**ROAD MASTER** Mobile Multi-Nozzle Bitumen Sprayer (2000 liter capacity) is for spraying of hot bitumen in DBST/SBST and Tack Coat on the road surface. It is mounted on a chassis fabricated of roller steel sections. The chassis is then fitted on the truck body. The chassis of the bitumen sprayer can be dismantled from truck body easily. The spray system consist of bitumen pump, air blower, diesel pump for burner, burner nozzle and kerosene back wash system. The spray bar has 1828 mm of fixed length and 915 mm of extra attachment in two part to increase the spray length of 2745 mm. The pump blower, oil pump are driven by V-belt and pulley to achieve the required RPM. A clutch system is fitted with the bitumen pump to isolate the bitumen pump when required. After bitumen spraying the system to be washed by kerosene by back wash system to prevent clogging of cold bitumen.
